Subject: RE: Prop 65 Label Language for EPA Reg. No. 961-408. NOTIF

According to a recent telephone call (9/18/18) with Rick Keigwin and Janet Collins of CropLife America and Stephanie Binns of RISE, the Prop 65 language that does not conflict with the signal word should be moving forward for review. The label on the subject products contains the revised non-conflicting labeling..

Since this labeling request has been pending for a while, it there any chance to get an update? Thanks

See previous e-mail for details.

Here is the NOTIF label.

Subject: RE: Prop 65 Label Language for EPA Reg. No. 961-408.

Hi John,

California Department of Pesticide Regulation (DPR) has commented on EPA's proposed changes to Pesticide Registration Notice (PRN) 98-10 under EPA docket number: <u>EPA-OPP-2016-671-0002</u> requesting that Prop. 65 statement be a non-notification. In addition, Syngenta's comments on the PRN 98-10 recommend adding a State section. We will work with California to determine how we will manage Prop. 65 request in the future. Once we work out a process, we will complete the pending Prop. 65 actions pending with the agency.

Rachel Holloman, Chief

This is follow-up to my voice message.

Ruben Baris has indicated that my Prop 65 label warning on my request from Nov, 2017 is tied up. Kerry Leifer recently indicate that there some internal movement of this i with glyphosate. Since it has no direct connection to the any glyphosate concerns is there any chance to get movement on this request in the near term?

Thank in advance for your consideration.
